

## **HIGH RISK ILLNESS POLICY**

This policy address Andora's Healing Light's policies and protocols related to COVID-19, Monkeypox, or any other illnesses with a high risk of pandemic/endemic transmission as identified by the Center for Disease Control when having an in-person session.

At Andora's Healing Light, we employ the following policies to lower the risk of transmission of any illnesses:

- Regular sanitizing of the healing area and restroom
- Masks worn by both visitors and Andora during sessions
- Hand washing is required upon entry by all guests
- Hand sanitizer available in all areas
- Regular COVID-19 testing of all occupants
- Use of disposable PPE such as gloves, masks, and protective coverings for the healing bed
- Vaccinated staff (vaccination is not required of guests)
- Staggered appointments to prevent multiple guests from occupying waiting areas together

If you are experiencing any cold or flu-like symptoms or other listed symptoms for any of these illnesses, please reschedule your in-person appointment or use the Zoom link included in your appointment confirmation to have a distance session. If you have traveled outside the country and are unsure of your COVID-19 status, please opt for a distance session or reschedule after you have tested negative.

Please refrain from bringing any extra guests who are not being treated to your appointments.

We respect everyone's personal choices and wish to do our best to keep everyone healthy and safe. If for any reason you are unable to abide by this policy, you are welcome to a distance healing session which there is no extra charge for.
